

MUHAMMAD SAIM AYYAZ

Information Technology Graduate | Full-Stack & AI/ML Developer

Islamabad, Pakistan | +92 310 7867246 | saimisatwork@gmail.com | linkedin.com/in/muhammad-saim-ayyaz | github.com/saimayyazsheikh

PROFESSIONAL SUMMARY

Information Technology graduate with hands-on experience building full-stack web applications, AI/computer-vision systems, and IoT solutions. Skilled in Python, JavaScript, React, Flask, and Firebase, with proven ability to deliver secure, scalable software through Agile and DevOps practices. Seeking a full-time software engineering or AI/ML role to apply development skills to real-world products.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, Dart, HTML5, CSS3

Frameworks & Libraries: React, Node.js, Express.js, Flask, .NET, Flutter

Databases & Cloud: MongoDB, Firebase (Realtime DB), AWS, Cloud Vision AI, Cloudflare

Tools & DevOps: Git, GitHub, Docker, Jenkins, CI/CD, Arduino IDE, Tinkercad

Core Concepts: OOP, Data Structures & Algorithms, DBMS, Computer Networks, REST APIs, Authentication & Security, IoT, Agile, System Administration

EXPERIENCE

Full-Stack Developer — SafeTradeHub (Final Year Project)

Spring 2025 – Spring 2026

Secure C2C escrow-based marketplace | Python, Flask, Firebase, Cloud Vision AI

- **Architected** a secure C2C marketplace with mandatory identity verification, integrating CNIC and live facial-image matching to reduce fraudulent listings.
- **Built** a Trustee Module (escrow system) to protect buyer/seller payments across a 7-stage automated logistics tracking pipeline.
- **Designed** a custom Manager-Engine backend architecture in Flask, improving transaction dispute resolution through an automated gateway.
- **Integrated** Firebase Realtime Database and Google Cloud Vision AI for real-time content moderation and listing verification.
- **Collaborated** in a 3-person Agile team under faculty supervision, managing version control and sprints via Git/GitHub.

KEY PROJECTS

EduSense — Real-Time Student Engagement Miner

AI & Deep Learning

- **Developed** an AI-powered desktop application using computer vision and deep learning to monitor student engagement in real time via webcam.
- **Implemented** facial-expression analysis to classify emotional states (attention, confusion, boredom) with a live Heads-Up Display (HUD).
- **Logged** session-level engagement data to enable post-study analytics for educators.

Pill Tracer — Medicine Inventory Management System

Database Management

- **Built** a web platform connecting pharmacies and customers through a centralized, location-aware medicine inventory database.
- **Developed** an owner dashboard for real-time stock-level tracking and sales analytics, improving inventory visibility.

SAIM Dairy Farm Management System

Web Development

- **Engineered** a livestock and operations tracking application for a family dairy farm, digitizing previously manual record-keeping.
- **Streamlined** data-entry workflows for production and inventory, reducing administrative overhead.

Smart Greenhouse — IoT Automation System

Embedded Systems

- **Engineered** an automated environmental control system using Arduino and multi-sensor input (temperature, moisture, light).
- **Programmed** threshold-based logic to trigger automated hardware responses and alerts, validated through Tinkercad simulation.

EDUCATION

Air University, Islamabad <i>Bachelor of Science in Information Technology (BSIT) — CGPA: 2.82/4.00</i> Relevant Coursework: OOP, DSA, Database Systems, Computer Networks, Social Network Analysis, DevOps, IoT, Operating Systems, Web Technologies, Data Warehousing & Mining	<i>Graduated 2026</i>
Higher Secondary School Certificate (ICS) <i>Percentage: 81.9%</i>	<i>2022</i>
Secondary School Certificate (Science) <i>Percentage: 86.09%</i>	<i>2020</i>

CERTIFICATIONS & ACHIEVEMENTS

- Migrating to the AWS Cloud — Amazon Web Services / Coursera (Jan 2025)
- Millennium Fellowship — Leadership development program presented by UNAI & MCN (Jan 2026)
- IELTS — Overall Band Score: 6.5
